Dear Frank:

Re: Burnt Fork/Birch Creek

The write-up looks good but there are a few further revisions which I think should be made. It appears some parts of the original write-up were omitted from the second draft. I have indicated my suggested changes on the enclosed copy of the write-up which you sent me.

I think the general information contained in the write-up would be useful for the water users in the area. However, I have suggested on the copy that Section 6 be changed to reflect the current status of the commissioner program. I would also suggest that in Section 7 the discussion of the specific problems with Gino Fionini and Lyman Grazing be eliminated since this may become a reference document for the people in the area.

If you have any questions about my suggestions, please call me.

Sincerely,

Lee H. Sim, P.E.
Assistant State Engineer
for Distribution/Adjudication
